 Department: Field Safety and Building Inspection Office  
 Program: Confined Space  
 Authority: [ESH Manual, Chapter 6, Confined Space](#)  
 Date Effective: 15 October 2009

This form applies to spaces that are listed as a non-permit required confined space (NPRCS) in the confined space inventory. It establishes that there are no existing hazards associated with this confined space and that the planned work will not introduce any. The form (or equivalent subcontractor's SLAC-approved form) must be completed before anyone enters the space and it must be submitted to the confined space program manager (M/S 84) once the work is done. If entry conditions do not meet requirements or for more information, see [Confined Space: Entry Procedures](#).
