

Lead Safety: Signs

Department: Chemical and General Safety

Program: Lead Safety

Owner: Program Manager, John Shepardson

Authority: ES&H Manual, Chapter 20, Lead Safety

Lead storage areas or lead work areas where exposures may be half of the permissible exposure level (as designated by an industrial hygiene survey) must be posted with signs that identify the hazard and prohibited activities in that area.

Storage Areas

Lead storage areas must be posted as follows:

Work Areas

Lead work areas where exposures may be half of the defined personal exposure limit(as designated by an industrial hygiene survey), must be posted as follows:
