

STANFORD UNIVERSITY
KAVLI INSTITUTE FOR PARTICLE ASTROPHYSICS AND COSMOLOGY
FACULTY POSITION

The Department of Physics and the Stanford Linear Accelerator Center invite applications for one or two tenure track appointments in particle astrophysics and cosmology. These appointments will be affiliated with the Department of Physics and/or the Stanford Linear Accelerator Center and include membership in the Kavli Institute for Particle Astrophysics and Cosmology (KIPAC).

We are especially interested in candidates in two areas: (1) experimental cosmology and astrophysics with an emphasis on the development of new or advanced instrumentation; and (2) high energy astrophysics with an emphasis on exploiting new science opportunities in gamma ray astronomy. Further details may be found at http://www-group.slac.stanford.edu/kipac/faculty_ad.html.

Candidates should submit a curriculum vitae, publication list and a statement of research plans and arrange for three letters of reference to be sent to: Jenifer Conan-Tice, Dept. of Physics, Stanford University, 382 Via Pueblo Mall, Stanford, CA 94305-4060 (tice@stanford.edu). Electronic submission is accepted. Applications should be complete by Dec 1, 2006; applications submitted after that time may be considered, depending on how far the search process has progressed. Potential applicants after December 1 should contact Jenifer Conan-Tice for current status of the search and further information.

Stanford University and SLAC are equal opportunity, affirmative action employers and are committed to increasing the diversity of their faculty. They welcome nominations of and applications from women and members of minority groups, as well as others who would bring additional dimensions to the research and teaching missions.
