Department: Field Safety and Building Inspection Office
Program: Confined Space
Authority: ESH Manual, Chapter 6, Confined Space
Date Effective: 15 October 2009

This form applies to spaces that are listed as a non-permit required confined space (NPRCS) in the confined space inventory. It establishes that there are no existing hazards associated with this confined space and that the planned work will not introduce any. The form (or equivalent subcontractor’s SLAC-approved form) must be completed before anyone enters the space and it must be submitted to the confined space program manager (M/S 84) once the work is done. If entry conditions do not meet requirements or for more information, see Confined Space: Entry Procedures.

See the confined space inventory for the following information

The classification in the inventory is NPRCS □ No □ Yes N/A

Tracking number: Date of last hazard evaluation:

Description: Any new hazards since last evaluation?

Location: □ No □ Yes (list):

Evaluate if new hazards will be created by the planned work

☐ No □ Yes Will any activities that could create a hazard be conducted inside the confined space, such as welding or breaking a line?

☐ No □ Yes Will any chemicals that could create a hazard be brought into the space? Examples include solvents and adhesives. If yes, specify:

☐ No □ Yes Are there any conditions in or around this space that could adversely affect anyone who enters it?

Note: A NPRCS entry requires that conditions must be such that the answer to all three questions is "no".

Entrants and Attendants (Minimum of two workers is required)
