

CONTENTS

Preface**F. LÖFFLER**A. Current Alignment Topics of the various Accelerators

W. SCHAUERTE

Surveying and Alignment Concept for the Bonn Electron Stretcher Accelerator (ELSA) 3

I. SCHMADEL

Geodetic Survey and Component Alignment of the Combined Heavy Ion Synchrotron SIS and the Experimental Storage Cooler Ring ESR 11

K. ENDO

Precise Alignment Method for Tristan Accelerator 27

J. KIROCHKIN, B. MUKHIN, V. ULANOV, I. ZHURAVLEV

The General Principles of Survey for UNK-1 45

F. LÖFFLER

The Alignment of the DESY-Accelerators — An Overview 69

W.W. SAPP, M. FARKHONDEH, J.D. ZUMBRO

Survey and Alignment of the MIT/BATES South Hall Ring 89

G.S. CLARK, D.G. MARTIN

KAON Factory Alignment 93

R. KELLER, T. LAURITZEN, H. FRIEDSAM

Survey and Alignment for the ALS Project at LBL Berkeley 101

F. WEI ELETTRA Alignment	115
R.E. RULAND A Summary of Ground Motion Effects at SLAC resulting from the Oct 17th 1989 Earthquake	131
W. OREN Current Alignment Topics at CEBAF	157
B. Instrumentation, Methods and Software	
<hr/>	
D. MARTIN, D. ROUX Real Time Altimetric Control by a Hydrostatic Levelling System	171
R. GOTTWALD, M. RIEMENSBERGER KERN-SMART-310 — Leica's Approach to High Precision Dynamic 3D Coordinate Determination	183
M. HUBLIN Practical and Logistic Aspects of the Alignment of the LEP Collider	201
G. NEUBAUER, W. SCHWARZ Threedimensional Alignment Methods for the HERA Superconducting Magnets	215
M. MAYOUD, E. MENANT, J.P. QUESNEL Technological Evolution of Measurement Tools — Dilemmas, Illusions and Realities	229
J. KIROCHKIN, B. MUKHIN, A. NOVGORODOV Smoothing the Errors in the Equipment Alignment on the Joints of the UNK Sections	237

W. NIEMEIER, D. TENGEN PANDA — The Software Package for Precise Engineering Networks	245
W. SCHWARZ Some Considerations on the Alignment-Accuracy for Accelerators	265
K. ENDO Photogrammetric Approach to Installation Problems	273
J. TANABE, R. KELLER, T. LAURITZEN Fiducialization Procedures for the ALS Ring Magnets and the Booster Synchrotron Girders	283
J. BILLAN, G. BRUN, K. N. HENRICHSEN, P. LEGRAND, O. PAGANO, P. ROHMIG, L. WALCKIERS Alignment Methods Applied to the LEP Magnet Measurements	295
M. ZAK, J. KWIECIEN Refraction free Method of Laser Alignment	305
N. KORITTKO Influence of Horizontal Refraction on the Traverse Measurements in Tunnels with Small Diameters	315
K. KATAYAMA, Y. TAKAHASHI, T. IMAZAWA, N. MURAI, T. TAMAKI The Investigation of Vibration of LINAC at KEK	333

C. Metrology for Experiments

- C. LASSEUR
Geodetic Metrology for Large Experiments 345
- H. JÖSTLEIN
The Electronic Alignment System at the Fermilab D0 Detector 359
- T. DOBERS, M. KRENDLER, H.P. LOHMANN, E. WEISS
Alignment Aspects for the HERA-Experiments ZEUS and H1 383

D. Next Generation Accelerators

- G.E. FISCHER, R.E. RULAND
The Proposed Alignment System for the Final Focus Test. Beam at SLAC 419
- N. ISHIHARA et al.
T. KUBOTA et al.
A Test Facility for the Position Control System of JLC 453
- W. COOSEMANS, P. POIRIER, I. WILSON
Experimental Approach of Micropositioning Problems on Future Linear Colliders 461
- W. SCHWARZ
Wire Measurements for the Control of the FFTB-Magnets 469

P R O C E E D I N G S
of the
Second International Workshop
on
Accelerator Alignment

September 10 - September 12, 1990

at

Deutsches Elektronen Synchrotron DESY
Hamburg, Federal Republic of Germany
