

Average Deviation = 0.0006

Broken Red line is Average Value of Deviation

Vertical lines represent Magnet Sub-Assemblies

Deviation is the change in Gap width at the same YZ cross section (Previous Dataset Magnetic Centerline)

Relative change in location of Pole Tips. Red = Bottom Pole Tips, Green = Top Pole Tips

Precision Measurement and Inspection

Deviation in Undulator Pole Tip Gap

Current Dataset = 0047

Previous Dataset = 0045

DATE: 14-MAR-2014

UNDULATOR # 13
