

SLUO 2009 Annual Meeting – SLAC September 17th 2009

Dear SLUO and PPA Colleague,

SLUO is convening its [Annual Meeting](#) on September 17th 2009, from 8:30 A.M. until 6:30 P.M., followed by a Reception.

The scope of research in the Particle Physics and Astrophysics Division (PPA) at SLAC National Accelerator Laboratory now extends from deep underground science to the cosmos: the Meeting agenda will reflect this. At the same time, accelerator science — the hallmark of SLAC for the last 40 years — is going through a period of change and renewal, with new initiatives like FACET and LHC-related projects replacing research focused on the on-site HEP accelerators. Accelerator science at SLAC will be the core discussion of the afternoon sessions of this SLUO 2009 Annual Meeting.

It is essential that the SLUO Community has strong participation at this meeting.

The SLUO Executive Committee cordially invites you and all the members of your Group/Collaboration* to attend this important event, followed by the hosted Reception in the Breezeway.

* Please forward this invitation to all the members of your community on behalf of the SLUO Executive Committee. Attendances at the meeting and at the Reception are free; however, to assist with planning, we would greatly appreciate participants to fill in the [registration](#).

Contact Jill Meyers at jmeyers@SLAC.Stanford.edu for any additional information.

We are looking forward to seeing you all there.

Best regards,

Gérard Bonneaud – SLUO Chair
on behalf of the SLUO Executive Committee
