Taylor-Dunn C-425 Electric Tow Tractor Inspection Checklist

ENVIRONMENT, SAFETY & HEALTH DIVISION

Product ID: [650](#) | Revision ID: 2294 | Date Published: 26 July 2021 | Date Effective: 26 July 2021

URL: <https://www-group.slac.stanford.edu/esh/eshmanual/references/pivChecklistInspectTDC425.pdf>

Industrial trucks must be inspected by either the custodian or operator before each shift and by the custodian when the truck is first brought on-site and immediately after service, maintenance, or repair (see [Industrial Trucks: Inspection Procedures](#) [SLAC-I-730-0A21C-009]). This checklist is to be completed to document the inspection. The completed checklist is to be kept in a weatherproof enclosure on the truck, where it must remain throughout the shift, and delivered to the custodian at the end of the shift. The custodian keeps it for one year from date of inspection.

Custodian name: _____	Truck type: <u>Electric Tow Tractor</u>	Date/time: _____
Custodian number: _____	Model #: <u>Taylor-Dunn C-425</u>	Shift: _____
Inspected by: _____	Vehicle #: _____	Hours metered: _____

Inspection Item	Result	Comment	Reported to (name)
Visual walk-around: dents, scratches, damage	<input type="checkbox"/> Pass <input type="checkbox"/> Fail
