Chapter 55: Site Access Control

Visitor Authorization Procedure

1 Purpose

The purpose of this procedure is to protect visitors to SLAC by making sure they have been approved and made aware of site hazards and site access policies and procedures. It covers approving visitor access. It applies to visitors and their SLAC points of contact, supervisors, and SLAC Site Security.

This procedure does not apply to guests of the Stanford Guest House, riders of the Marguerite Shuttle, and members of the public attending special events and lectures. (For authorizing access for them, see Site Access Control: General Requirements.)

2 Procedure

A visitor is an individual not performing SLAC-related work, for example:

1. All individuals coming to SLAC to attend a meeting/conference/seminar and/or workshop that is held in the general access area of the laboratory and who are not performing any SLAC-related work or experiments or receiving payments or reimbursements from SLAC
2. Anyone on-site for the sole purpose of attending SLAC public tours or public lectures
3. Anyone attending special events that do not require any training or work
4. Anyone staying at the Guest House who is not affiliated with SLAC experimenters or work
5. All delivery personal/vendors making deliveries to SLAC or to construction/special projects

Visitors must have a business purpose and a SLAC point of contact (who can be any individual who has completed training and been issued a SLAC ID badge) and approval to enter SLAC. Users and subcontractors may request site access for visitors only for tours.
