

NLCTA-Note #30

September 19, 1994

Subject: Circular Copper Waveguide
Tubing Specifications.

Authors: Richard F. Boyce

The dimensional, material and procedural specifications for the purchase of circular copper waveguide tubing have been combined into a purchase specification drawing for two different diameters of circular copper waveguide tubing:

PS-290-301-01 2.93" Circular Copper Waveguide

PS-290-291-02 4.75" Circular Copper Waveguide
